MEMORANDUM

TO: [ ] [ ]

FROM: [ ] [ ]

SUBJECT: Mobile Radio Operation - EDUCATOR Project

1. Concerning the attached from [ ] [ ], I am afraid that I am at a loss to say what to do about it. My main reason is that I have never been able to accurately ascertain our present policy on psychological warfare broadcasting along the lines outlined by [ ] [ ]. My feeling is that our plans have not jelled to the point where a thing like this can be undertaken but I am not sure if this position is correct.

2. As for the equipment, the training manual 11-281 is under no circumstances suitable for the purpose which [ ] [ ] has in mind. It is a standard 500 watt army communications set designed primarily for telegraphy and it either must be a misunderstanding on their part or wrong information furnished to them to assume that this set is at all suitable for broadcasting.

*Handwritten note:*  
The attached is a copy of the manual 11-281 which is a standard 500 watt army communications set designed primarily for telegraphy and it either must be a misunderstanding on their part or wrong information furnished to them to assume that this set is at all suitable for broadcasting.
